## EDUCATION

### University of Lakeside

Bachelor of Science in Computer Science

*Minor in Economics*

Chicago, IL

GPA: 3.8 / 4.0

August 2022 – May 2026

- Relevant Coursework: Web Development, Algorithms, Database Systems, Software Engineering
- Recipient of the Chancellor's Merit Scholarship (2022-2026)

## EXPERIENCE

### Full-Stack Engineer Intern

June 2025 – August 2025

*Innovate Solutions*

Chicago, IL

- Developed and launched a customer feedback portal using React and Node.js, increasing user engagement metrics by 25%.
- Designed and implemented a RESTful API with Express.js to handle data flow between the frontend and a PostgreSQL database.
- Wrote unit and integration tests with Jest and Cypress, improving code coverage of the main application from 70% to 90%.

## PROJECTS

### GamerConnect | *A social platform for gamers*

January 2025

- Created a full-stack MERN application for users to find teammates for online games, featuring user profiles and real-time chat via Socket.IO.
- Implemented a MongoDB schema for storing user data, game preferences, and chat history.
- Deployed the application to AWS Elastic Beanstalk, configuring a CI/CD pipeline with GitHub Actions.

## TECHNICAL SKILLS

**Languages:** JavaScript (ES6+), Python, HTML/CSS, SQL

**Cloud Platforms:** AWS (Elastic Beanstalk, S3), Vercel

**Frameworks:** React, Node.js, Express.js

**Libraries and Tools:** Docker, Git, MongoDB, PostgreSQL, Jest, Cypress, Webpack
